

Deployable Cable Drums

- Rugged design for use in harsh environments.
- Range of drum core sizes for optimal fit.
- Stackable for ease of transport and stowage.
- Thermoplastic coated mild steel, powder-coated mild steel, or stainless steel.
- Custom combinations for specialist applications.
- NATO colours available.

Designed for use in harsh environments. Each cable drum has the capability of carrying and securing cables, ropes and other narrow-gauge coils. This supports the rapid deployment of network connectivity, fibre optic cables or other military and non-military uses.

Each reel's nominal capacity is understated by 25% to enable users to rewind the cable quickly without fear of over-spooling.

Along with a range of standard designs, Supply Plus offers tailored options to meet your exact deployment requirements.

- NATO coloured reels available as standard.
- Black thermoplastic coating available upon request.
- Custom solutions available.

The CY range of cable drums is suitable for military and non-military applications – including the rapid deployment of network connectivity and other critical operational activities.

All cable drums are manufactured from mild steel and fitted with tough thermoplastic feet. The units are stackable for efficient transport and storage.

CY-150

The smallest of the units has a 90mm drum core and incorporates three cable supports, two connector clips and an integral winding knob.

The drum is retained on a cantilever axle by a spring catch and a carrying handle is incorporated into the top of the frame for easy handling.

CY-300 & CY-600

The larger products are based on one design with a 230mm drum diameter and varying drum widths for greater capacity.

The drum has four cable supports and two cable access points. A pin lock is fitted to the shaft in order to lock the drum when required. The winding handle rotates through 180 degrees for compact stowage.

CY-1000 & CY-1300

The largest in the cable drum range with capacities exceeding 1,300m. These units have been used for a multitude of applications around the world.

Warranty

Our products benefit from a 12-month manufacturer's warranty.

Made in the UK

Supply Plus is headquartered in Cambridge, UK, in our 6,000m² (64,000 ft²) facility.

CY-300 with Nato Green powder coat

Capacity (m)	6 mm	8 mm	10 mm	12 mm	16 mm	20 mm	Flange (mm)	Hub Ø (mm)	Width (mm)	Weight (kg)
CY-150	150	80	50	30	-	-	320	90	125	6.40
CY-300	300	150	100	60	30	15	450	230	150	11.4
CY-600	600	300	200	140	60	50	450	230	300	12.8
CY-1000	1,000	500	300	200	100	60	450	230	450	15.2
CY-1300	1,300	700	400	300	140	90	450	230	600	16.6

Nominal capacities are shown at 75% to allow for sub-optimal recoiling.
