AS Fire & Safety Ladder Jig Kits

Issue: 1

Date: Sept 16

The Supply Plus products are designed to meet the specific requirements of Fire and Rescue Services around the world.

Our fire ladder brands, AS Fire and Safety and Bayley are in service in more than 50 countries around the globe.

The Jig Kits are designed to be used by trained technicians to assist in the repair of the AS Fire and Safety ladders.

The kit consists of 11 pieces and accompanied with a full set of instructions detailing where each jig is to be used to ensure that repairs and replacements can be carried out as effectively and accurately as possible for the safety of the users.

The Jig Kits are used by technicians and other personnel who have attended our Four day Comprehensive Ladder Maintenance and Repair course and our Two day Refresher Ladder Maintenance and Repair course that is designed to ensure competency is maintained.
